MainSt HUB - On-boarding Retailers & Service Co's

MainSt HUB offering is quickly increasing the number of storefronts and service providers to ARknet with the ease of having their products and services featured at no cost. The sentiment has resoundingly been, "Adding another channel where my products can show up here in town is a no-brainer." New business engagement tool within the ARknet Platform for on-boarding more HUB relationships is moving into testing phase this week. Tools leverage the interactive AR gaming feature first used in ARkHunt 2019 for our official Guinness World Record title attempt for the "Largest Augmented Reality Scavenger Hunt in One Week".

With MainSt HUB as our initial offering, ARknet has seen an increase in Retail shops and Service providers willing quickly agree to hang a shingle on ARknet's new mobile shopping platform, Main St Shopping.
